

What I Like About the Earth

Hmm what I like about the Earth? I love the plants and animals that live here. Plus without Earth we would not be here. We would be standing. We would have no ocean to swim. No land or houses. Can you believe how much earth helps us? So take care of it!

You can take care of earth by recycling. How to recycle? Oh you want to know how to recycle? Well, first you need to know what to recycle. These things you can recycle paper, plastic, cans, card, board, glass. Like magazines or snack boxes.

You can also do the 3 R's. The 3 R's mean reduce reuse recycle. I like to do the 3 R's because they help my home. We can all jump in and make a difference.
