What I Love about the Earth

I love the earth it is so green like a wonderful dream.

It is nice with mice and people playing with dice.

We must dare to care or only bad things will come.

We pray every day for the animals at stake.

I love the animals, birds and all the creepy crawlers.

But sadly some are badly dying.

That is why we must put a stop to this or we will regret.

I love earth so let's care for the earth animals and trees.

So please read this poem and realize the harm and darn yourself.

This world is great so let's keep it that way all day until the end of time.
