**I love the earth because of all she gives;
I love her because she helps us live.**

**Her oceans, skies and forest with its trees;
Her majestic presence provides all our needs.**

**She has rainforests full of colors so bright;
She even has hot deserts that get very cold at night.**

**And I can't forget her mountains and beaches;
And all of the cool stuff she can teach us.**

**How wonderful to know she's there for us;
But we must take care of her and not break her trust.**

**The earth surrounds us above;
She gives us her all, what's not to love!**
